SUBJECT	Station/Operations Eugenio ENDROEDY - Low Priority Interest in Operational Exploitation		ABSTRACT
			MICROFILM

ACTION REQUIRED - REFERENCES

Reference: OSMA-11432 dated 28 September 1960

1. Reference dispatch with its presentation of Subject's OIS past and his spirited plea for a role in the anti-Communist struggle was discussed at length with interested components of the German desk at Headquarters. At this stage reaction by both the German and Spanish desks was lukewarm to the operational use of ENDROEDY. However, this does not mean that [] should discontinue contact with Subject, only that as of now Headquarters has reservations about ENDROEDY's worth to the overall KUBARK effort in or out of Spain.

2. We are convinced that ENDROEDY is ideologically well motivated but suspect that [] in good faith is seeking a KUBARK subsidy for an old and trusted friend. Although it would be biased, an appraisal by [] of the true worth and present operational capabilities of ENDROEDY is in order. The nagging suspicion that financial motivation outweighs ENDROEDY's desire to aid KUBARK, plus the lack of concrete proposals by ENDROEDY, contributed to the unenthusiastic response. In summary, Headquarters at present lacks sufficient information about ENDROEDY, i.e., specifics on what (and through whom) he can contribute, to prepare any definitive advice to the Field. We have no strong feelings against the use of a convinced Nazi today, provided he has something tangible to offer and is kept under close control and direction. The question remains -- what has he to offer? The dispatch tells us little of this except that he apparently possesses a number of desirable skills of the trade -- languages, photography and perhaps W/T experience.

3. Since the desk has little interest in ENDROEDY unless future conversations develop additional information the Spanish desk suggests that the following moves be considered:

(a) That [] seek from [] his candid opinion on ENDROEDY -- where he could best serve, his strong and weak points, how serious is his financial distress and what he expects in the way of compensation if collaboration commences. Also, why hasn't greater use of ENDROEDY been made by [] or the []

<p>(b) Does the Field have any targets in the Vigo area, presumably the one area where ENDRONY could best serve out interests? Frankly, we fear that ENDRONY may be rusty and provincial in his outlook after many years of inactivity in a way station such as Vigo. Also, we are somewhat perplexed that a man with ENDRONY's past experience has <u>no</u> suggestions as to how he can be used.</p> <p>(c) Debrief ENDRONY on his past intelligence contacts and history. We prefer that this not be considered a priority matter but that it be done on a time-available basis only.</p> <p>(d) Given ENDRONY's apparent technical skills -- translator, expert photographer, V/T operator -- he may be a valuable across-the-board support type, provided that a need exists for such full-time or even part-time services.</p> <p>4. Complete traces were run at Headquarters. German desk CE files were negative. RI traces confirm Subject's position with the Hungarian Legation in Lisbon and his SD position. One trace is worth forwarding, WELI-3688 dated 7 March 1950, source SMOTH.</p> <p>According to (source) the most interesting personality at present living in Madrid was ENRUDY, a Hungarian who had been employed formerly by the SD in Lisbon. ENRUDY arrived there from Egypt approximately one year before the capitulation. After the capitulation ENRUDY had approached (source) and asked for financial assistance. During (source's) recent visit to Madrid, it struck him as incongruous to discover that ENRUDY now owns a house near Seville, runs his own car, and apparently has plenty of money at his disposal. ENRUDY is reputed to travel frequently to Madrid and Barcelona and to have dealings with a Pole named RASE, who lives in Barcelona and trades with Poland. According to (source) the whole German colony in Madrid is intrigued by ENRUDY's apparent success and is of the opinion that he is financed from the Argentine. The Spanish police, however, who are also interested in ENRUDY, are said to believe that he is in contact with Eastern Germany.</p> <p>5. Regarding your request in paragraph five for a general comment on the present possible usefulness of former German intelligence personnel now in Spain, both the German desk and this desk agree that each case must be reviewed on its individual merits and that no blanket Headquarters comment is possible. Otto SKORZENY and his contacts with EUBANK in Madrid illustrate the need for individual scrutiny of each single former GIB agent or official.</p> <p style="text-align: center;">[—————]</p> <p>WE-5/EWM/bb</p> <p>2 November 1960</p> <p>Distribution:</p> <ul style="list-style-type: none"> 3 - Madrid 1 - EE/G ✓ 1 - WE/5 1 - WE/5/Chrono 1 - RI
